

# Internship PPT

## Data Science Master

Submitted to School of Computer Science and Engineering  
IILM University, Greater Noida, U.P.

---

**SHUSHANT TIWARI**

Roll Number: 2410031232 | Batch: 2026-27

# Declaration & Acknowledgement

## Candidate's Declaration

I, SHUSHANT TIWARI, do hereby declare that the internship report titled "Data Science Master" has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering.

All the references have been quoted and I have not taken as such any material from another source. I affirm this report is my own and has not been submitted elsewhere.

## Acknowledgement

I would like to thank the AICTE - EduSkills Virtual Internship Program team and EduSkills Foundation for providing me the structured platform to learn and gain hands-on exposure in Data Science Master, supported by Siemens.

I am also thankful to IILM University, Greater Noida, and the faculty of the School of Computer Science and Engineering for their continuous support.

# Introduction & Organization

## The Internship

This 8-week Virtual Internship was undertaken under the AICTE - EduSkills Virtual Internship Program in "Data Science Master", supported by Siemens.

It aimed to build a strong, industry-relevant foundation in data science, covering problem identification, data engineering, advanced data preparation, and enterprise-level platform administration.

## Organization Profile

EduSkills Foundation is an ISO 9001:2015 certified organization working under "Nation Building Through Skills".

Partnering with AICTE and Siemens Industry Software, the program utilizes the RapidMiner AI Hub platform to provide practical exposure to the complete data science lifecycle in a robust virtual lab setting.

# Problem Statement & Scope

## The Problem

Engineering students often lack structured exposure to the complete, end-to-end data science lifecycle used in the industry.

This internship directly addressed the gap by implementing practical workflows using industry-standard enterprise tools and expertly guided lab environments.

## Project Scope

The scope spans the entire AI/ML pipeline—from identifying business use cases, engineering raw data, and building predictive models, to efficiently deploying and administering intelligent solutions on the RapidMiner AI Hub.

# Internship Offer Letter

Ref No: C17Y2026M071502280

## Internship Offer Letter

**Student Name** : Shushant Tiwari  
**Stream** : B.Tech  
**Branch** : B.Tech(Computer Science and Engineering (Cyber Security))  
**Institute Name** : IILM University, Greater Noida  
**Internship Domain** : Siemens Data Science Master  
**Internship Duration** : June 2026 - August 2026  
**AICTE Student ID** : STU6831e75ea6a5f1748100958

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

### **Internship Structure & Evaluation:**

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

# Internship Advanced Credential

**CERTIFICATE**  
OF INTERNSHIP

PRESENTED TO

**SHUSHANT TIWARI**

*has successfully achieved the Internship Credential by completing a 8-week program in the domain of*

**Data Science Master Virtual Internship**

*During the internship, the learner demonstrated proficiency in:*

- Foundations of AI Deployment & Production Readiness & Advanced API Deployment with FastAPI
- Containerization with Docker & Introduction to MLOps & CI/CD Pipelines
- Cloud Deployment Basics (AWS SageMaker, Google Vertex AI, Azure ML) & Deploying Generative AI Applications
- Building Advanced AI Agents with LangChain & LlamaIndex & AI-Powered Automation Workflows
- Integrating AI into Web/Mobile Apps & Security and Compliance in AI Deployment
- Container Orchestration with Kubernetes & Monitoring, Logging & Observability
- Performance Optimization & Cost Management & Model Drift Detection & Retraining & Advanced RAG & Agentic Workflows
- Case Studies & Best Practices in AI Deployment & Project: Deploy a Full-Stack RAG Application & Project: AI Agent for Business Automation & Capstone Project: End-to-End AI Solution for Business Problem

This certification recognizes the successful completion of the internship requirements.

Issued on: Jul 27, 2026  
Certificate ID: 2026-E38A24E1S7

Milu Swain  
General Manager

# Communication & Confirmation

# Internship Completion Certificate

# Key Project Objectives

-  **Identify Business Problems:** Find optimal use cases suitable for AI and Machine Learning solutions.
-  **Data Engineering:** Learn to access, load, transform, and calculate data for analysis-ready pipelines.
-  **Machine Learning:** Build both foundational and advanced machine learning skills for predictive modelling.
-  **Data Preparation:** Master advanced data handling, cleaning, and workflow automation techniques.
-  **Deployment & Administration:** Deploy models for real-world use cases and configure/manage RapidMiner AI Hub.

# Technologies & Tools

## Programming & Data

Python for core programming and data analysis. Comprehensive tools for data access, loading, transformation, and calculations.

## Machine Learning

Application of foundational and advanced ML techniques, model building, and advanced data handling with automation tools.

## Platform & Deployment

RapidMiner AI Hub platform utilized for enterprise-level operations, alongside advanced model deployment and monitoring tools.

# Internship Methodology (7-Week Plan)

# Architecture & Expected Outcomes

## System Architecture Layers

- **Business:** Problem identification.
- **Data Engineering:** Data transformations.
- **Modelling:** Foundational/advanced ML.
- **Data Preparation:** Automation & cleaning.
- **Application:** Deployment & monitoring.
- **Administration:** RapidMiner AI Hub ops.

## Outcomes Achieved

- Practical understanding of data engineering.
- Hands-on skills in building advanced ML models.
- Capability to perform data automation.
- Skill to deploy and monitor business use cases.
- Enterprise platform administration experience.
- End-to-end data science lifecycle completion.
