

An Internship Report
Of
Data Science Master (Siemens Data Science Master)
Submitted
To
School of Computer Science and Engineering
IILM University, Greater Noida, U.P.
In partial fulfilment of the requirement of degree of
B-Tech (CSE)

By
Roll Number of Student:- 2410031232
Name of Student: SHUSHANT TIWARI
Batch: 2026-27

CANDIDATE'S DECLARATION

I, SHUSHANT TIWARI, do hereby declare that the internship report titled “Data Science Master” has been completed by me to fulfil the requirement for the award of the degree of Bachelor of Technology in Computer Science and Engineering. All the references have been quoted and I have not taken as such any material from any other source. I affirm that this report is my own and has not been submitted to any other institute for any degree/diploma requirement, and further I shall be solely responsible for any kind of copyright violation in this regard.

Signature:-

Student Name: SHUSHANT TIWARI

Roll No.: 2410031232

ACKNOWLEDGEMENT

I am using this opportunity to express my gratitude to everyone who supported me throughout the Internship Program. I am thankful for their aspiring guidance, invaluable constructive criticism and friendly advice during this work. I am sincerely grateful to them for sharing their truthful and illuminating views on a number of issues related to this work.

I would like to thank the AICTE – EduSkills Virtual Internship Program team and EduSkills Foundation for providing me the opportunity and the structured platform to learn and gain hands-on exposure in the domain of Data Science Master, supported by Siemens. I am also thankful to my institute, IILM University, Greater Noida, and the faculty of the School of Computer Science and Engineering for their continuous support and encouragement.

I express my gratitude to my parents for their blessings.

Signature:

Student Name: SHUSHANT TIWARI

Roll No.: 2410031232

Certificate of Virtual Internship

This is to certify that

Shushant Tiwari

IILM University, Greater Noida

has successfully completed the 8-weeks

Data Science Master Virtual Internship

During June - August 2026

May this Internship learning propel you toward a bright and successful career.

Student ID: STU6831e75ea6a5f1748100958

GRADE- O (Outstanding):90-100 | E (Excellent):80-89 | A (Very Good):70-79 | B (Good): 60-69 | C (Fair): 50-59 | D (Average): 40-49 | P (Pass): 30-39 | F (Fail): Below 30

Internship Offer Letter

Ref No: C17Y2026M071502280

Internship Offer Letter

Student Name : Shushant Tiwari
Stream : B.Tech
Branch : B.Tech(Computer Science and Engineering (Cyber Security))
Institute Name : IILM University, Greater Noida
Internship Domain : Siemens Data Science Master
Internship Duration : June 2026 - August 2026
AICTE Student ID : STU6831e75ea6a5f1748100958

We are pleased to inform you that you have been selected for the 8-Week **AICTE – EduSkills Virtual Internship Program**.

During this internship, you will learn and demonstrate industry-relevant skills that will enhance your employability and strengthen your confidence in the subject area.

The program is designed to provide structured learning combined with practical exposure.

Internship Structure & Evaluation:

- The internship will follow a **week-wise structured learning plan**.
- You will be required to complete **weekly assessments** to track your progress and understanding.
- Certain modules will require submission of **project documentation and assignments**.
- In the final week, you must appear for a **Final Assessment Test**.
- The final grade will be based on your overall performance, including weekly assessments, project submissions, and the final test.

Upon successful completion of all required steps and assessments, you will be awarded a **Virtual Internship Certificate**.

Please note that this offer letter will be considered valid only after the successful completion of the internship program and fulfillment of all assessment requirements, including obtaining the final completion certificate. Without the final completion certificate, this offer letter shall not be treated as a valid document for any official purpose.

The week wise Structure of the Internship is as Follows:

Week	Module	Description
Week 1	Applications & Use Cases Professional	Learn to identify business problems suitable for AI and machine learning.
Week 2	Data Engineering Professional	Learn to access, load, transform, and calculate data.
Week 3	Machine Learning Professional	Build foundational machine learning skills.
Week 4	Data Preparation Master	Master advanced data handling and automation.
Week 5	Machine Learning Master	Learn advanced machine learning techniques.
Week 6	Applications & Use Cases Master	Deploy and monitor ML models.
Week 7	Platform Administration Master	Configure and manage RapidMiner AI Hub.
Week 8	Platform Administration Master	Enterprise-level platform operations.
Final Credential Validation / Internship Grade Point Assessment		

Note: There is no stipend associated with this internship.

We congratulate you on your selection and wish you a successful learning journey.

4. PROJECT DESCRIPTION

4.1 Introduction

This report presents a detailed account of the 8-week Virtual Internship undertaken under the AICTE – EduSkills Virtual Internship Program, in the domain of “Data Science Master”, supported by Siemens. The internship was carried out from June 2026 to August 2026 as part of the requirement of the Bachelor of Technology (Computer Science and Engineering) programme at IILM University, Greater Noida. The primary aim of this internship was to build a strong, industry-relevant foundation in data science — covering the identification of business problems suitable for AI/ML, data engineering, machine learning, advanced data preparation, and enterprise-level deployment and administration of data science platforms.

The internship followed a structured, week-wise curriculum that combined conceptual learning with hands-on assignments, weekly assessments, project documentation, and a Final Assessment Test. On successful completion of all the requirements, a Virtual Internship Certificate was awarded by EduSkills Foundation, supported by Siemens.

4.2 Organization Profile

EduSkills Foundation is an ISO 9001:2015 and ISO 20000-1:2018 certified organization working under the theme “Nation Building Through Skills”. EduSkills partners with the All India Council for Technical Education (AICTE) to run the AICTE – EduSkills Virtual Internship Program under the patronage of the AICTE National Internship Portal. For the Data Science Master track, the program is supported by Siemens Industry Software, and learners work on the RapidMiner AI Hub platform to gain practical exposure to data engineering, machine learning, and enterprise platform administration.

4.3 Problem Statement

While many engineering students are introduced to the basics of data analysis and machine learning during academic coursework, few get structured exposure to the complete data science lifecycle used in the industry — from identifying a suitable business problem, through data engineering and model building, to preparing data at scale and administering enterprise data science platforms. The problem addressed by this internship was to understand and practically implement this end-to-end data science workflow using industry-standard tools and the RapidMiner AI Hub platform.

4.4 Project Objectives

- To identify business problems suitable for Artificial Intelligence and Machine Learning solutions.
- To learn to access, load, transform, and calculate data for analysis-ready pipelines.
- To build foundational and advanced machine learning skills for predictive modelling.
- To master advanced data preparation, cleaning, and automation techniques.
- To deploy and monitor machine learning models for real-world use cases.
- To configure and manage the RapidMiner AI Hub platform.
- To gain hands-on experience with enterprise-level data science platform operations.
- To apply all the above concepts through weekly assessments and a Final Assessment Test.

4.5 Scope of the Project

The scope of this internship spans the complete data science pipeline — starting from identifying business use cases for AI/ML, engineering and preparing data, building and refining machine learning models, and finally deploying, monitoring, and administering these solutions on an enterprise

platform. The internship was limited to a virtual, simulation/lab-based environment provided by EduSkills Foundation and Siemens, and did not involve deployment on any live organizational production system.

4.6 Technologies and Tools Used

- **Programming & Data Analysis:** Python
- **Data Engineering:** Data access, loading, transformation, and calculation tools
- **Machine Learning:** Foundational and advanced ML techniques and model building
- **Data Preparation & Automation:** Advanced data handling and automation tools
- **Platform:** RapidMiner AI Hub
- **Deployment & Monitoring:** Model deployment and monitoring tools

4.7 System Architecture

The general architecture followed during the internship for a data science solution can be summarized in the following layers:

- **Business Layer:** Identification of business problems suitable for AI and machine learning.
- **Data Engineering Layer:** Accessing, loading, transforming, and calculating raw data.
- **Modelling Layer:** Building foundational and advanced machine learning models.
- **Data Preparation Layer:** Advanced data handling, cleaning, and automation.
- **Application Layer:** Deployment and monitoring of machine learning models for business use cases.
- **Platform Administration Layer:** Configuration and enterprise-level management of the RapidMiner AI Hub.

4.8 Methodology

The internship followed a structured, week-wise methodology combining conceptual learning, hands-on labs, weekly assessments, and project submissions, as summarized in the table below.

Week	Module	Description
1	Applications & Use Cases Professional	Identifying business problems suitable for AI and Machine Learning applications.
2	Data Engineering Professional	Accessing, loading, transforming, and calculating data for analysis-ready pipelines.
3	Machine Learning Professional	Building foundational machine learning skills and predictive models.
4	Data Preparation Master	Mastering advanced data handling, cleaning, and automation techniques.
5	Machine Learning Master	Learning advanced machine learning techniques and model tuning.
6	Applications & Use Cases Master	Deploying and monitoring machine learning models in real-world use cases.
7	Platform Administration Master	Configuring and managing the RapidMiner AI Hub platform.

Week	Module	Description
8	Platform Administration Master	Enterprise-level platform operations and final credential validation / grade point assessment.

Each week concluded with a weekly assessment to evaluate conceptual understanding, and selected modules required submission of project documentation and assignments. In the final week, a Final Assessment Test was conducted, and the overall grade was based on performance across weekly assessments, project submissions, and the final test.

4.9 Expected Outcomes

- Ability to identify business problems suitable for AI/ML solutions.
- Practical understanding of data engineering — accessing, loading, transforming, and calculating data.
- Hands-on skills in building foundational and advanced machine learning models.
- Capability to perform advanced data preparation and automation.
- Skill to deploy and monitor machine learning models for business use cases.
- Understanding of enterprise-level platform administration using RapidMiner AI Hub.
- A completed internship demonstrating the end-to-end data science lifecycle.

4.10 Certificates of Completion and Communication Proof

The Internship Offer Letter and the Internship Completion Certificate issued by EduSkills Foundation, confirming successful completion of the 8-week AICTE – EduSkills Virtual Internship Program in Data Science Master, supported by Siemens, are attached in Chapter 3 of this report. The email communication confirming the availability of the certificate is shown below.

Dear Shushant Tiwari,

 **Congratulations!**

You have successfully completed **10 weeks Siemens Data Science Master** internship with EduSkills Foundation. Your certificate is ready – please log in to your profile and download it.

Steps to Download Your Certificate:

1. Login at: <https://aicte-internship.eduskillsfoundation.org/>
2. Go to the **Certificate Section** from your sidebar
3. Click **Download Certificate**

Please post your certificate on your **LinkedIn profile** to get better job opportunities and visibility from corporates.

Why You Should Share Your Achievements on LinkedIn

1. **World's Largest Professional Platform**

LinkedIn has 900+ million professionals and 60+ million companies worldwide.

2. **Recruiters Actively Use LinkedIn**

Around 8 out of 10 recruiters use LinkedIn to find and verify candidates.

3. **Profiles Are Checked Before Hiring**

More than 90% of hiring managers review LinkedIn profiles before shortlisting candidates.

4. **Better Visibility for Freshers**

Students who post certificates, internships, and projects appear in recruiter searches more often.

5. **Skill-Based Hiring is Growing**

Employers now focus more on skills, certifications, and practical experience.

6. **Higher Chances of Job Opportunities**

Active LinkedIn profiles with achievements get more internship and job opportunities.

 **Tip:** Always share your certificates, tag EduSkills, mentors, and peers to increase visibility and professional networking.

 **Please Tag the following on LinkedIn:**

@EduSkills Foundation | @AICTE | @AICTE NEAT | @Altair | @Shyama Rathod | @Chandrasekhar
Buddha | @Ramesha BS | @Vishwanath Rao | @IILM University, Greater Noida

Hashtags:

#AICTEinternship #AICTENEAT #AICTE #EduSkillsFoundation #AICTE_EduSkills_Internship
#EduSkillsInternship #Altair

 Cohort 16 Registrations Open from 1st April 2026!

Continue your learning journey with EduSkills and explore **30+ new emerging technology domains** designed for future careers.

Learn. Build Skills. Get Industry Ready.

Don't miss the chance to be part of **India's largest industry internship and skill development ecosystem.**
